EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1.1 Cancel Claim 10.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The closest prior art known to the Examiner is listed on the attached PTO 892 forms. Ochi et al. (US Patent 5334661), Minamisawa et al. (US Patent 6815491), Inaika et al (US Patent 4749748), and Browning et al. (US Patent 4016022) all teach compositions that contain epoxy resins mixed with carboxy terminated rubbers that further contain carbon or graphite type fibers. However, none of the prior art discloses a composition containing vapor grown carbon fibers (VGCF) nor would it have been obvious to substitute the fibers of the prior art with VGCF since VGCF display unique physical properties as a result of their production process. The Gauthier article teaches a similar composition to the one claimed, however, it is not available as prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
